

GRAPPA PROSECCO

DESCRIPTION: a grappa born from a careful selection of Glera grape pomace, fresh and soft harvested, distilled with a discontinuous still that works under vacuum in order to enhance the varietal aromas.

ORGANOLEPTIC CHARACTERISTICS: the color is transparent and brilliant. The nose reveals an orchestra of olfactory scents ranging from delicate fruity notes of apple and pear to the floral of jasmine and acacia flowers; interesting balsamic declination with hints attributable to aromatic herbs and juniper. On the palate it expresses its cleanliness, freshness, elegance and gentle softness.

ALCOHOL CONTENT: 40% vol.

SERVING TEMPERATURE: 10-12 °C

BOTTLE: 100 cl
